GARAGE • SHED • CARPORT BUILDER SHOW

Since we publish magazines that have been around for decades, Shield Wall Media has long-standing relationships with suppliers and manufacturers. The Garage, Shed & Carport Builder Show brings many of them together so builders of special-use residential structures can find the materials and services they need all in one place. In addition to a robust exhibit hall, the show includes educational sessions and other networking opportunities for manufacturers and shed builders.

Construction Rollforming Show

The Construction Rollforming Show is unique. If you roll form or use benders or brakes to form panels, channel, studding, soffits, gutters, carport or other construction components this is your show. The educational programming and exhibitors are tailored specifically to companies that roll form or metal form for the construction industry. This IS NOT a show for small contractors. This is a specific niche of manufacturers and builders large enough to do their own fabrication and buy materials and components in pallet, container or truck load lots.
